DIFFERENTIAL EQUATIONS

Volume 5, Numbers 1-12, 1969

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 1

January, 1969

CONTENTS

	Eng./Russ.
Boundary Value Problems in Thermoelasticity—V. D. Kupradze and T. V. Burchuladze . .	1 3
Certain Boundary Value Problems for Hyperbolic Equations and for Equations of Mixed Type—A. M. Nakhushev	37 44
Effective Methods of Solution of the Dirichlet Problem for Elliptic Systems of Second- Order Differential Equations with Constant Coefficients in Regions Bounded by an Ellipse—N. E. Tovmasyan	52 60
Stability of the Inverse Problem for an Exterior Potential—A. I. Prilepko	62 72
Application of Degenerate Equations to the Study of a Directional Derivative Problem —A. Yanushauskas	69 81
Some Boundary Value Problems for Equations of Mixed Type with Two Perpendicular Lines of Degeneration—M. M. Zainulabidov	78 91
Regular Matrix Equations with Partial Derivatives—V. Kh. Froim	86 100
Behavior of Solutions of Parabolic Equations for Large Time—O. G. Provorova	93 108
A Class of Singular Integro-Differential Equations—R. S. Saks	100 115
The Dirichlet Problem for Degenerate Elliptic Systems—E. A. Baderko	114 131
Solving the Dirichlet Problem for Laplace's Equation for Domains with Curved Corners by the Method of Nets—E. A. Volkov	122 141
Estimates of Derivatives of the Associated Legendre Functions in the L_2 Metric —A. S. Fokht	132 154
Asymptotic Behavior as $t \rightarrow \infty$ of the Solution of One Interior Boundary-Value Problem for Sobolev's Equation—V. G. Lezhnev	137 159
Systems with First Order "Time" Derivatives—V. K. Romanko	150 174
Natural Differential Operators on Compact Manifolds—Pham Ngoc Thao	160 186
A Class of Equations of Mixed Type—G. D. Karatoprakliev	171 199

The Russian press date (podpisano k pechatu) of this issue was 1/24/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 2

February, 1969

CONTENTS

	Eng./Russ.	
Theory of Invariant Sets in Periodic Systems of Differential Equations—V. A. Pliss . . .	177	215
Uniqueness of Solutions of Volterra Equations—Z. B. Tsalyuk	188	228
Proof of the Bogolyubov-Krylov Method for Ordinary Differential Equations —P. P. Zabreiko and I. B. Ledovskaya	198	240
Behavior of Solutions in the Large of a Nonlinear System—M. A. Balitinov	209	254
A Class of Systems of Differential Equations Having Solutions without Moving Essential Singularities—S. G. Kondratenya	217	263
Stability of the Trivial Solution of a System of Two Differential Equations —G. S. Krechetov	225	273
Strict Error Estimates of Integration of a Differential Equation by Störmer's Method. II. —L. Ya. Adrianova	236	286
Solutions of an Equation with Periodic Coefficients—É. I. Grudo	244	296
Stability in-the-Large of the Solutions of Certain Nonlinear Third-Order Equations —I. V. Gaishun	252	305
Asymptotic Behavior of Singular Sturm-Liouville Problems with Respect to a Large Parameter in the Case of Neighboring Transition Points—S. Yu. Slavyanov	258	313
Distinguishing between a Center and a Focus—A. P. Sadovskii	268	326
Complete Solvability of Multidimensional Differential Equations with a Potential Right Side—V. V. Strygin	272	331
Boundary-Value Problems for Ordinary Differential Equations with Discontinuous Right Side—L. N. Fadeeva	282	343
Nonlinear Weakly Coupled Systems—L. D. Akulenko	288	350
Boundary Value Problems for Quasi-Linear Equations with a Small Parameter in the Leading Derivative—A. B. Zimin	294	357
Solution in Finite Form of Systems of Linear Differential Equations—K. L. Leibson . . .	305	371
BRIEF COMMUNICATIONS		
Functions Defined by a System of Differential Equations—N. A. Lukashevich	310	379
Structure of the Solution of a Differential Equation with a Weakly Nonperiodic Right-Hand Side—A. N. Erugin	313	382
Periodic Solutions of a Certain Class of Nonlinear Equations—V. V. Amel'kin	316	385
Stability of the Solutions of Nonlinear Systems—N. T. Primachuk	320	389

The Russian press date (podpisano k pechati) of this issue was 2/14/69.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 3

March, 1969

CONTENTS

	Eng./Russ.
Differential Games of Approach. I. Structurally Stable Case—N. N. Krasovskii	325 407
Stability in the Large of the Null Solution of a Third-Order Nonlinear Equation —E. A. Barbashin	337 424
Optimal Control of the Motion of a Quasilinear System—E. G. Al'brekht	342 430
Degenerate Linear Differential Equations. III—V. P. Glushko	352 443
A Nonlinear Periodic Boundary Value Problem for an Equation and a System of Equations of the Second Order—B. M. Arkhipov	362 456
Some Integral Inequalities for Boundary Value Problems of Differential Equations —Sh. G. Gamidov	367 463
Qualitative Picture in the Large of a Dynamical System—P. S. Belevets	375 473
Stability of the Bubnov—Galerkin Method for First-Order Equations with Variable Coefficients in Hilbert Space—M. A. Veliev	380 479
Stability of Solutions of Differential Equations with a Lagging Argument under Average-Bounded Perturbations—T. A. Zamanov	387 488
Linear Difference Equations with Exponential Coefficients—K. G. Valeev	395 499
Analytic Properties of the Scattering Amplitude in the One-Dimensional Case. II —M. V. Fedoryuk	402 507
Uniqueness of the Solution of a Mixed Problem for a Quasilinear Hyperbolic Equation —G. I. Chandirov	411 518
A Partially Characteristic Boundary Value Problem for a Particular Type of Partial Differential Equation. II—N. I. Yurchuk	421 531
Expansion of Solutions of Second-Order Differential Equations in Banach Spaces into Series of Exponential Solutions—V. G. Raskin and P. E. Sobolevskii	430 543
F-Index and F-Normal Solvability of Integro-Differential Operators—Yu. K. Lando	433 546
BRIEF COMMUNICATIONS	
The Property of Symmetry in the Concept of Almost Reducibility—B. F. Bylov	442 556
The Number of Periodic Solutions of First-Order Equations with Rational Right-Hand Side—V. M. Lebedeva	445 560
The Uniqueness of the Limit Cycle of the System $\dot{y} = -g(x)$, $\dot{x} = y - f(x)$ —G. S. Rychkov	448 563
Integral Inequalities with Nonmonotonic Functions—V. A. Bondarenko	450 565
Solution of Nonlinear Integral Equations of Mixed Type by the Method of Averaging Functional Corrections—V. I. Tivonchuk	453 568
A Bound for the Derivatives of Solutions of a Boundary Value Problem for a Polyharmonic Equation—M. F. Timan	458 574
A Correction to an Expression for a Degenerate Hypergeometric Function of Two Variables—N. M. Il'enkov	463 580

The Russian press date (podpisano k pechati) of this issue was 3/7/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 4

April, 1969

CONTENTS

	Eng./Russ.
Degenerate Linear Differential Equations. IV - V. P. Glushko.	465 599
Some Sufficiency Conditions for the Asymptotic Stability of the Zero Solution of a Nonautonomous System of Two Differential Equations - G. S. Krechetov . . .	472 612
The Integral Matrix of a System of Differential Equations - P. B. Golokvoschyus . . .	479 626
The Integration in Closed Form of Certain Systems of Ordinary Linear Second-Order Differential Equations - V. M. Merkis	486 641
Floquet's Theory for Equations with Retarded Argument - Yu. I. Lyubich and V. A. Tkachenko.	490 648
The Problem of the Lyapunov Stability of Resonance Solutions of Certain Multifrequency Systems with Weak Coupling - L. D. Akulenko	495 657
On the Theory of Optimal Processes in Linear Systems with Retardation - R. Gabasov and S. V. Churakova.	498 662
Some Theorems for Lyapunov's Second Method - S. K. Persidskii	507 678
On the Construction of a Set of Systems of Differential Equations for Stable Motion According to an Integral Manifold - R. G. Mukharlyamov.	512 688
On the Analytical Theory of Ordinary Differential Equations with Retarded Arguments - E. I. Grudo.	518 700
The Third Harmonic Boundary-Value Problem for the Half-Plane with Boundary Condition Containing Variable Coefficients - I. A. Strakhov.	525 712
Solution of Certain Differential Equations in Classes of Functions That Are Quasi-Analytic with Respect to Linear Differential Operators - V. G. Khryptun . .	532 724
Periodic Solutions of a System of Partial Differential Equations of Neutral Type - B. P. Tkach	538 735
BRIEF COMMUNICATIONS	
On the Instability of Singular Exponents and on Asymmetry in Relation to the Almost Reducibility of Linear Systems of Differential Equations - V. M. Millionshchikov . .	545 749
A Note on the Stability of Pseudo-Runge-Kutta Two-Point Methods - A. F. Klement'ev.	546 751
A Hypothesis in the Theory of Stability for Nonlinear Systems - G. A. Leonov	547 753
Asymptotic Behavior of Solutions of a Nonlinear Integro-differential Equation - L. V. Burkova.	549 757
The Solution of the Two-Dimensional Cauchy Problem for a System of Differential Equations in the Theory of Heat and Mass Transfer - N. N. Samuilov	552 762
Expansion in Eigenfunctions of Certain Linear Integro-Differential Equations - B. I. Aleksandriiskii	554 764
An Inequality for the Solution of the Dirichlet Problem on a Sphere - A. S. Tsygankov .	556 768
The Analog of the Method of Straight Lines for a First-Order Equation in a Banach Space - Sh. I. Ibragimov	558 772

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 5

May, 1969

CONTENTS

	Eng./Russ.
A Linear Problem in Optimal Control – V.G. Boltyanskii	561 781
Necessary and Sufficient Criteria and the Exact Asymptotic Form for Stability in the First Approximation – R.É. Vinograd	572 800
The Existence of a Family of Periodic Solutions for a System of Two Second-Order Differential Equations – I. A. Pasynkova	584 814
The Problem of the Stability of Quasiperiodic Motions – A. S. Gurtovnik and Yu. I. Neimark	592 824
A Generalization of the First Lyapunov Stability Theorem for Certain Classes of Differential Equations in a Banach Space – E. N. Gersht	599 833
Stability of the Equilibrium Position for Systems of Differential Equations – M. M. Khapaev	612 848
The Problem of Stability under Constant Perturbations – N. G. Bulgakov	618 856
Integral Equations with a Discontinuous Operator – N. V. Azbelev, R. K. Ragimkhanov, and L. N. Fadeeva	623 862
Behavior of the Integral Surfaces of the Homogeneous Pfaff Differential Equation in the Neighborhood of Singular Rays – M. V. Kozhero	633 874
Existence and Uniqueness of Solutions of Differential Equations with Retardation, Depending on the Solution and Its Derivative – L. A. Zhivotovskii	638 880
A Problem with a Small Parameter – M. S. Nikol'skii	646 890
A Partially Characteristic Mixed Boundary Value Problem with Goursat Initial Conditions for Linear Equations with Two-Dimensional Time – N. I. Yurchuk	652 898
Bounds for L_p Norms for Derivatives in Terms of a Nonregular Set of Differential Operators – G. G. Kazaryan	662 911
Certain Model Systems of Equations in Gas Dynamics – Ya. I. Kanel	671 922
Some Two-Dimensional Problems in Electrostatics Involving the Conformal Transformation of Curvilinear Quadrangles – E. D. Pergamentseva	681 935
The Relation between Harmonic Functions of Different Dimensions – Yu. A. Dement'ev	689 945
BRIEF COMMUNICATIONS	
Necessary Optimality Conditions for a System of Integral Equations – R. Gabasov	695 952
Some Criteria for the Stability of the Transformation by a Transmission System for a Locally Integrable Signal – S. T. Zavalishchin	697 954
An Averaging Variant in Systems of Integro-Differential Equations – A. N. Filatov and L. I. Talipova	701 958
The Solution of a Problem in the Theory of Controllability – N. N. Petrov	705 962
Isochronicity in the Case of a Focus – V. I. Chemodanov	708 964
Asymptotic Expressions for the Eigenvalues and Eigenfunctions of Problems of the Sturm-Liouville Type – S. S. Kritskaya	711 967

The Russian press date (podpisano k pechatu) of this issue was 5/16/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Volume 5, Number 6

June, 1969

CONTENTS

	Eng./Russ.	
The Structure of Asymptotically Stable Invariant Sets of Structurally Stable Autonomous Systems of Differential Equations - V. A. Pliss	715	979
Bounded Mappings of Banach Spaces of Distributions, Realizable by Dynamic Systems - S. T. Zavalishchin	725	992
Asymptotic Solution of a System of Linear Differential Equations with Slowly Varying Coefficients Whose Matrix has Multiple Elementary Divisors - I. I. Starun and N. I. Shkil'	733	1002
Generalized Solutions of Systems with Control - A. D. Ioffe	740	1010
Analytical Theory of Infinite Systems of Linear Differential Equations - Yu. V. Kuznetsov	746	1018
The Number of Periodic Solutions of a First-Order Differential Equation which has an Incomplete Polynomial on the Right Side - V. M. Lebedeva	755	1029
An Analogy between Solutions of Perturbed and Unperturbed Systems with a Completely Partitioned Diagonal Matrix - E. A. Tikhonova	761	1037
Theory of Characteristic Vectors and m-th-Order Reducible Systems - Hoang Hu'u D'u'ong	775	1055
Relative Controllability of Linear Systems with Variable and Distributed Time Lags - S. V. Churakova	784	1068
Reduction of a Dynamic System to the Triangular Form - V. S. Samovol	790	1076
A New Method of Investigating the Isochronicity of a System of Two Differential Equations - I. I. Pleshkan	796	1083
The Behavior of Solutions in the Large for a Nonlinear System in Automatic Control Theory - M. A. Balitinov	803	1091
Uniform Approximation of Sets and Proximity in Partially Ordered Dynamic Systems - A. M. Stakhi	811	1101
Generalized Bernstein Conditions for Nonlinear Systems of Ordinary Differential Equations - L. M. Vaserman and A. Ya. Lepin	816	1107
The Conditions for which Green's Function of the Sturm - Liouville Problem for an Ordinary Second-Order Linear Differential Equation is Negative - G. N. Zhevlakov and S. A. Pak	822	1114
The Number of Operations in the Investigation of the Singular Point of the Generalized Briot and Bouquet Equation in the Quasi-Analytic Case - T. V. Stepanova	827	1120
Nonlocal Continuity of the Solutions of Differential Equations with a Lagging Argument - A. D. Myshkis and Z. B. Tsalyuk	833	1128
Differential Equations with Involutions - I. Ya. Viner	836	1131

The Russian press date (podpisano k pechati) of this issue was 5/27/1969. Publication therefore did not occur prior to this date, but must be assumed to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Translation published November, 1972

Volume 5, Number 7

July, 1969

CONTENTS

Eng./Russ.

On the Cycles of One First-Order Equation — A. P. Vorob'ev	843	1159
Systems with Integral Separateness Which Are Everywhere Dense in the Set of All Linear Systems of Differential Equations — V. M. Millionshchikov	850	1167
Comparison Principle with Vector-Valued Lyapunov Functions. III. — V. M. Matrosov	853	1171
The Highest Exponent of a Linear System with Exponential Perturbations — N. A. Izobov	865	1186
The Approximate Solution of Certain Equations with Parameters — S. A. Lomov	871	1193
The Application of Lyapunov's Second Method to the Investigation of the Stability and Asymptotic Stability of Sets in Dispersive Dynamical Systems — M. S. Izman	883	1207
Stability of the Solutions of Integro-Differential Equations with a Lagging Argument — G. F. Yakovleva	892	1218
Finite Difference Methods for Equations of Parabolic Type in a Banach Space — L. I. Yakut	897	1225
The First Problem of Frommer Differentiation for Perturbations from Osgood and Tamarkin Classes — R. S. Levitin	905	1236
A Stability Test for Difference Equations — V. B. Demidovich	914	1247
Asymptotic Behavior of the Solutions of Differential Equations with a Lagging Argument — M. I. Artem'ev, V. M. Verzhbitskii, Yu. N. Smolin, and Z. B. Tsalyuk	922	1256
The Oscillations of a Mathematical Pendulum with Shock Impulses — B. S. Kalitin	931	1267
The Maxwell-Leontovich Operator — S. G. Krein and I. M. Kulikov	937	1275
Some New Boundary Value Problems for a Particular Form of Partial Differential Equations. III. — N. I. Brish and N. I. Yurchuk	944	1283
The Solution of Certain Problems in Mathematical Physics — M. M. Ignatenko and V. Kh. Kirillov	954	1296
A Variational Problem — G. N. Yakovlev	960	1303
A Mixed Problem in the Theory of Elasticity — P. V. Kereksha and N. Ya. Tikhonen and N. Ya. Tikhonenko	967	1313
BRIEF COMMUNICATIONS		
Singularities of Solutions of Certain Systems of Differential Equations — S. G. Kondratenya and A. I. Yablonskii	974	1321
On a Differential Inequality — V. N. Laptinskii and L. P. Yurasova	977	1324
A Method for Constructing Lyapunov Functions and the Dissipativity of Multidimensional Systems — V. I. Mironenko	979	1326
The Limit Cycles of One Class of Differential Equations — M. V. Dolov	983	1330
Examples of the Birth of a Limit Cycle from a Separatrix Loop and from a Singular Cycle — N. I. Avdonin	988	1335

CONTENTS

(continued)

Engl./Russ.

Parametric Dependence of the Periodic Solutions of a Third-Order System of Differential Equations — Yu. V. Churin.	991 · 1338
---	------------

The Russian press date (podpisano k pechatu) of this issue was 6/25/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Translation published November, 1972

Volume 5, Number 8

August, 1972

CONTENTS

	Eng./Russ.
Homeomorphism of Dynamical Systems – D. M. Grobman.	995 1351
On the Control of a Linear System by Generalized Actions – A. B. Kurzanskii and Yu. S. Osipov.	1002 1360
Action of a Markov Process on a System of Differential Equations – G. N. Mil'shtein and Yu. M. Repin.	1010 1371
Bounds for the Solutions of Pseudolinear Systems and Their Stability in a Finite Interval – V. P. Rudakov.	1020 1385
Application of Topological Methods to Nonlinear Boundary Value Problems for Ordinary Differential Equations – A. Ya. Lepin.	1025 1390
The Connection between the Solutions of Two Systems of Differential Equations – G. S. Krechetov.	1031 1398
Spaces $L_{p,\varphi}$ and Evolution Equations – V. A. Kostin.	1036 1405
Finite Difference Methods for Nonlinear Evolution Equations – L. I. Yakut.	1043 1415
On a Certain Gradient Method – Yu. M. Krivonos and B. A. Galanov.	1051 1426
On the Theory of the Limit Cauchy Problem for Differential Equations with an Unbounded Operator in Banach Space – S. M. Sardarly.	1055 1431
The Dissipativity of a Two-Dimensional System – V. M. Gershtein.	1060 1438
Cases of the Wiener–Hopf Equation on a Quadrant of the Plane – N. I. Moraru.	1065 1445
An Abstract Scheme for the Consideration of Parabolic Problems in Noncylindrical Regions – S. G. Krein and G. I. Laptev.	1073 1458
On Fundamental Solutions of Certain Singular Partial Differential Equations – I. A. Kipriyanov and V. I. Kononenko.	1082 1470
The Application of Integral Transformations to the Solution of a Class of Inverse Problems in Potential Theory – S. V. Temko and K. V. Temko.	1092 1484
Study of the Solvability of Perturbed Parabolic Equations in Banach Space and the Generalized Method of Bubnov–Galerkin for Their Approximate Solution – P. E. Sobolevskii and M. N. Titenskii.	1100 1495
On the Stability of Strong Discontinuities, Controlled by the Equations of Hydrodynamics and Modeling Combustion and Detonation Processes – A. K. Aslanov.	1106 1503
The Study of Green's Function for a Second Order Differential Equation in Domains with an Infinite Boundary – A. G. Ramm.	1111 1509
Accounting for Symmetry when Solving Boundary Value Problems by Variational Methods – V. G. Klimenko.	1117 1517
BRIEF COMMUNICATIONS	
Nonlinear First-Order Matrix Differential Equations – V. N. Laptinskii and V. V. Pugin.	1121 1523
One Problem from the General Theory of Dynamical Systems, Arising in the Theory of Linear Systems of Differential Equations – V. V. Rozhdestvenskii.	1124 1526

CONTENTS

(continued)

Engl./Russ.

Multipoint Boundary Value Problem for a System of Differential Equations - V. S. Klimov	1129 1532
An n -th Order Inhomogeneous Linear Differential Equation - G. K. Gemidzhiev	1132 1535
Remark on the Article "A Lyapunov Stability Criterion" - Wang Tan-Chih	1134 1537

The Russian press date (podpisano k pechati) of this issue was 7/24/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

Aleksandr Andreevich Samarskii Celebrates His Fiftieth Birthday — A. N. Tikhonov, V. A. Il'in, A. G. Sveshnikov, and A. A. Arsen'ev.....	1425 1909
---	-----------

The Russian press date (podpisano k pechati) of this issue was 10/27/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Translation published December, 1972

Volume 5, Number 11

November, 1969

CONTENTS

	Eng./Russ.
Some Problems in Thermoelasticity Solvable by Quadratures. II - V. D. Kupradze and T. V. Burchuladze.....	1431 1923
Fourier Series in Fundamental Systems of Functions for the Beltrami Operator - V. A. Il'in	1446 1940
Proof of the Existence of Irregular Systems of Linear Differential Equations with Quasiperiodic Coefficients - V. M. Millionshchikov	1475 1979
Existence of Families of Periodic Solutions of a System of n Second-Order Difference Equations in the Resonance Case - I. A. Pasynkova	1479 1984
Periodic Solutions and Stability of a Linear Differential Equation with Periodic Coefficients - E. L. Tonkov and G. I. Yutkin.....	1484 1990
A Singular Two-Point Boundary-Value Problem - I. T. Kiguradze.....	1493 2002
On the Behavior of the Trajectories of a Dynamic System - P. S. Belevets and A. I. Yablonskii	1505 2017
Limit Cycles and Analytic Integrals - M. V. Dolov.....	1513 2026
The Absence of Smooth Invariant Tori with an Irrational Rotation Number for a System of Differential Equations with Smoothly Stable Structure - V. E. Chernishev	1520 2034
On Solutions of a System of Integro-Differential Equations in a Neighborhood of a Singular Point. II - E. I. Grudo	1526 2041
On the Boundedness and Stability of the Solutions of Integrodifferential Equations having a Delayed Argument - Yu. A. Ved' and Z. Pakhyrov.....	1534 2050
On the Stability of Solutions of a System of Linear Differential-Difference Equations of Triangular Form - Z. I. Rekhitskii.....	1545 2062
Homogeneous Difference Schemes for Ordinary Differential Equations of Arbitrary Order with Discontinuous Coefficients - A. K. Boyarchuk and V. I. Shmatok ...	1550 2068
BRIEF COMMUNICATIONS	
On the Periodic Solutions of a Nonautonomous System - V. V. Amel'kin.....	1564 2085
Periodic Boundary Problems of Certain Differential Equations - V. S. Mokeichev.....	1566 2087
Asymptotic Behavior of Solutions of an Ordinary Second-Order Differential Equation - S. N. Olekhnik.....	1571 2093
On an Integral Expansion in Spherical Functions of the First and the Second Kind - N. A. Belova.....	1574 2096
On the Method of Collocation for Two Dimensional Integral Equations - Yu. P. Yartsev.....	1579 2101

The Russian press date (podpisano k pechatu) of this issue was 10/26/1969. Publication therefore did not occur prior to this date, but must be assumed to have taken place reasonably soon thereafter.

DIFFERENTIAL EQUATIONS

A translation of *Differentsial'nye Uravneniya*

Translation published December, 1972

Volume 5, Number 12

December, 1969

CONTENTS

	Eng./Russ.
Periodic Oscillations of Nonlinear Systems at Resonance. III — Ya. V. Bykov and T. Chinkaraev	1585 2115
The Principle of Comparison with a Vector Lyapunov Function. IV — V. M. Matrosov	1596 2129
Poisson Stable Solutions of Differential Equations and Topological Dynamics — B. A. Shcherbakov	1608 2144
On the Stability as a Whole of Motion Determined by a Certain Nonlinear Third Order System — I. V. Gaishun	1617 2156
Solution of an Integrodifferential Equation — E. I. Grudo	1624 2165
Fredholm Integral Equations of the Second Kind in the Problem of Diffraction of a Plane Wave at a Slit — V. M. Skurlov and V. P. Shestopalov	1630 2173
Mixed Problems for Some Semihyperbolic Equations — N. I. Brish	1649 2200
Parabolic Equations in the Plane and Semigroups — N. V. Krylov	1661 2216
Almost-Periodic and Periodic Solutions of a Problem for Parabolic Equations Involving an Oblique Derivative — I. I. Shmulev	1668 2225
Representation of Solutions of Inhomogeneous Boundary-Value Problems Involving the Bessel Operator — M. I. Klyuchantsev	1677 2237
A Study of Some Classes of Quasilinear Elliptic Equations of the Second Order. I — A. D. Dzhabrailov	1683 2245
Solution of Generalized Cauchy — Dirichlet Problem for Linear Polycaloric Equation — G. I. Sulkhanishvili	1694 2258
BRIEF COMMUNICATIONS	
Example of a Solution of Second-Order Differential Equation of Oscillatory Type Continuable over the Entire Axis — A. D. Myshkis	1701 2267
Method of Imaginary Quadratures — V. N. Laptinskii	1703 2269
Question of Convergence of Differential Descent — S. M. Gerashchenko	1706 2272
On a Characteristic of Normally Solvable Extensions of a Minimal Operator — I. V. Gel'man	1708 2274
On a Theorem of Chaplygin for a Quasilinear First-Order Partial Differential Equation — V. S. Blinchevskii	1710 2276
INDEX	

The Russian press date (podpisano k pechatii) of this issue was 12/1/1969.
Publication therefore did not occur prior to this date, but must be assumed
to have taken place reasonably soon thereafter.
